 antibiotics
 anti reflux surgery
 asthma
 breathing
 aortopexy
 apnoea/cessation of breathing
 aspiration
 atresia / gap
 biopsy
 bolus / food blockage in the oesophagus
 dilatation
 bronchi
 Charrière (unit for bougie)
 surgery
 colon
 small intestine
 dysphagia / swallowing difficulty
 dumping syndrome
 elongation
 endoscopy
 epigastric / relating to the upper abdomen
 fistula
 fundoplication
 gastric interposition
 gastro-oesophageal reflux
 gastrostomy
 throat
 jejunal tube
 laparoscopy
 lung
 stomach
 gastric acid
 gastric tube
 malabsorption
 micro aspiration
 motility
 mucosa / intestinal mucosa
 nausea / sickness
 obstruction
 oesophagitis
 oesophageal stoma
 oesophageal-tracheal fistula
 oesophagus
 oesophageal achalasia
 oesophageal atresia
 oesophagus perforation
 oesophageal rupture
 oesophageal stenosis
 oesophageal stricture
 peristalsis / muscle contraction in oesophagus to propel food to stomach
 pH-measure
 pneumonia
 pylorus
 reflux
 resorption / absorption
 respiratory
 suction tube
 scoliosis
 stent
 stridor / whistling sound during respiration (symptom of 'floppy trachea')
 stricture
 thorax
 trachea
 Tracheo-malacia
 tracheostomy / tracheal stoma
 VACTERL-association
 vagotomy
 diaphragm
